

Submission of Manuscript for publication

I, on behalf of all authors, wish to submit a case report entitled “**Critical Evaluation of Failed Maxillary Resin Bonded Bridge: A Case Study**” for consideration to publish in this esteemed journal. In this paper, we report on how to critically evaluate a failed or failing resin bonded bridge. It is significant to draw the attention of the readers the importance of identification of negative factors that impact the survival of restoration and the importance of regular reviews.

I confirmed that this work is original and has not been published elsewhere, nor is currently under consideration for publication elsewhere. I acknowledged that all appropriate consent was obtained and secured in our treatment facility as per practiced based on the local regulations. The patient was well aware that her clinical information is to be published for the benefits of humankind. We have no conflicts of interest to disclose.

I would also like to declare that all authors have critically reviewed and approved this manuscript for submission to your journal. The names and affiliations of all authors as below:
