Follow the instructions below to submit a manuscript to the Kemas. Shortly afterward, you will receive an email confirming your submission.

The submission process consists of the following steps:

1. Read and accept the Article Submission Agreement
2. Provide information about yourself
3. Provide information about any authors
4. Upload your article and related items

Before you begin, please be sure you have the following items:

- **Article Title**
- An **abstract** (separate from the article body)
- **Keywords** for your article (optional)
- **Article in one of the following formats: Microsoft Word, or RTF.**
Articles must be submitted without a title page, abstract, or page numbers. These will be provided by the system.

This is especially important so that you do not include any identifying information about the authors, as the article you submit will be sent to reviewers.

No part of the submission is final until all steps have been completed and you click the final **Submit** button. The review process begins as soon as Kemas receives a readable article, along with the abstract and article title. You may revise any of these elements later by clicking the submitted article's title on your **My Account** page.
